- *Inculcating social responsibility among the students*

Vision of the Department of Mechanical Engineering

- *To create Technically skilled and professionally competent workforce for Mechanical and allied engineering industries*

Mission of the Department of Mechanical Engineering

- *To facilitate conducive learning environment through quality resources*
- *To train the faculty for enhancing their competency*
- *To develop the employability of the students in line with industrial needs by interacting with mechanical & allied industries*
- *To provide effective career guidance to promote entrepreneurship and higher Education*
- *To promote personal and professional ethical values*

From the President's Desk

The pride of every student and staff would be in his/her college. A college may reach heights of glory but without materials like a college magazine, the outside world may not know of it. The role of a college magazine is therefore vital in promoting what an institution offers. It brings out into the open things hitherto unrevealed. It brings to light the names of the unsung heroes and their mighty deeds. I am happy that there is a dedicated team of staff and students who have brought out the first ever magazine of our college. They have presented the stupendous achievements of RPTC ians in the fields of academics, research, sports and extra-curricular activities, in a nice way.

ASPIRE represents the collective work of the team. I wish the magazine a grand success.

R. Venkatanarayanan
President – Corporate Services.
